

Population Health Management Solutions Market Segmentation, Industry Analysis By Consumption And Growth Rate By 2027

The market is expected to grow due to the increased government initiatives and usage of Big Data in analytics in the healthcare sector.

CANADA, BC, VANCOUVER, December 28, 2021 /EINPresswire.com/ -- The global [population health management solutions market](#) is forecasted to be worth USD 48.64 Billion by 2027, according to a current analysis by Emergen Research. The market is witnessing an increasing demand, mainly due to the adoption of IT in the

healthcare industry. Population health management solutions offer data integration and storage and patient monitoring options, which is propelling the market demand. The report offers a holistic coverage of the Population Health Management Solutions market, laying emphasis on the key factors influencing the industrial growth, technological developments taking place in the industry, and current and emerging trends witnessed in the leading regional markets. The report accurately offers insights into the supply-demand ratio and production and consumption volume of each segment. It also studies the supply chain disruptions and economic volatility induced by the pandemic and offers a current and future assessment of the impact of the pandemic on the global and regional Population Health Management Solutions market.

The advent of technologies such as data science, machine learning, and artificial intelligence within the healthcare industry is growing, which is fostering market growth. The shift from fee-for-service to value-based payment is creating a demand for the market. Furthermore, the growing awareness regarding value-based payment, which allows reimbursement and clinical outcomes from insurance companies, is also impacting the growth. Population health management solutions improve efficiency and cost-effective of the quality of patient care. The solution helps providers and payers to manage risk related to reimbursement policies. The population health management solutions allow better patient care management by simplifying risk stratification, patient communication, care coordination, and data aggregation.

Key participants include Epic Systems Corporation, I2I Population Health, Cerner Corporation,

Koninklijke Philips, Allscripts Healthcare Solutions, Enli Health Intelligence, IBM Corporation, Optum, Health Catalyst, and Healthec, LLC, among others.

Regional Landscape section of the Population Health Management Solutions report offers deeper insights into the regulatory framework, current and emerging market trends, production and consumption patterns, supply and demand dynamics, import/export, and presence of major players in each region.

The various regions analyzed in the report include:

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

For the purpose of this report, Emergen Research has segmented into the global Population Health Management Solutions Market on the basis of component, mode of deployment, end-user:

Component Outlook (Revenue, USD Billion; 2017-2027)

Software

Services

Post-Sale and Maintenance Services

Consulting Services

Training and Education Services

Implementation Services

Mode of Deployment Outlook (Revenue, USD Billion; 2017-2027)

On-Premises

Cloud-based

End-User Outlook (Revenue, USD Billion; 2017-2027)

Healthcare Providers

Ambulatory Care Centers

Hospitals, Physician Groups, and Integrated Delivery Networks

Diagnostic and Imaging Centers

Home Healthcare Agencies, Nursing Homes, and Assisted Living Facilities

Other Healthcare Providers

Healthcare Payers

Public Payers

Private Payers

Other
