

As Omicron Cases Increase in Sydney, Businesses Opt for Professional Covid Cleaning

SYDNEY, NSW, AUSTRALIA, December 29, 2021 /EINPresswire.com/ -- [Clean Group COVID Cleaning](#) is a commercial-based cleaning company that provides services across Sydney. The firm has recently announced that they are providing a complete range of COVID disinfection, cleaning, and disinfection as well. This cleaning company also issues certificates that confirm that certain property has been cleaned due to this pandemic and is safe for further purpose.

As per the current scenario, COVID has not gone yet, it is still influencing business across the globe. This is why SWA (Safe Work Australia) has published guidelines for finer cleaning and healthier hygiene methods. It has been claimed by Safe Work Australia (SWA) that disinfectant fogging is not the exact way for normal COVID

cleaning. Thus, Clean Group utilizes the Electrostatic Disinfection process for commercial disinfection along with sanitization. This process indulges the utilization of an electrostatic spray machine along with TGA - approved disinfectant chemicals for the purpose of high-traffic areas and surfaces.

Clean Group offers certification along with a cleaners' checklist

This company tends to become one of the first companies with a Covid cleaning checklist and certification across Sydney. Clean Group company owner said that the kind of services the company provides will help the businesses to get instant approval from the health department,

so that the industries, warehouses, showrooms are able to reopen in safe and germ-free surroundings. Because the company does not only clean the areas that have come under Covid infections but also intensely clean and disinfect all the high-traffic areas and touchpoints across the premises.

There are many companies that charge a huge amount for a task like disinfection fogging which is not even a recommended process for Covid cleaning. However, this Clean Group is comparatively, economical which means, by doing all the works similarly it does not charge for a heavy amount. Therefore, it is more important to get cleaning services from a reputed Covid cleaning-based company that gives the proper solution.

Why Clean Group is the best company for covid cleaning in Sydney

Clean Group is one of the award-winning commercial cleaning companies. The company has all the highly-trained staff who are specially trained for this situation. The trained Covid cleaning and disinfection experts have been doing this for years in this cleaning of construction sites, offices, and other commercial properties. These cleaners are experts as they have the finest eye to easily recognize the germs or similar like that in commercial places which never let them miss any certain corner while cleaning and disinfecting the client's properties. Apart from deep cleaning overall areas and surfaces, they properly disinfect all the touchpoints and all touchpoints and regular interacted areas such as handles & knobs, switches, window sills, faucets, toilets,
