LONDON, UNITED KINGDOM,  
December 30, 2021 /  
EINPresswire.com/ -- □

Over the past decades, exterior building spaces and rooftops have transformed from utilitarian ballasted roof systems to roof systems with environmentally conscious, people-friendly amenities that promote healthier lifestyles. The Global pedestal support system market is likely to ascend at a CAGR of 12.3% over the forecast period (2021-2027) according to QuantAlign Research. The demand for pedestal support system is expected to reach “USD 410.0” Million by 2027.

Pedestal support systems have emerged as an effective alternative to conventional slabs on granular base systems and slabs on permeable base system. As pedestals are an emerging technology, these conventional methods are popular among users and are still widely used across various applications. However, with constant technological enhancements and high-end research, alternative solutions like pedestal support systems have emerged.
