GRANDVILLE, MICHIGAN, UNITED STATES, December 30, 2021

/EINPresswire.com/ -- GMSacha Inchi \$QEDN \$GEGI obtain the first approval from INVIMA for the GMSacha Inchi Beverage

GMSacha Inchi is the only superfood rich in Omega 3 6 9 and a complete vegan protein with all 9 amino acids.

GMSacha Inchi beverage is packed in Tetrapack and can have a self-life of 6 months or more. INVIMA is the Colombian institute of food and medicine. INVIMA works together with the FDA to approve food and medicine for humans with this approval we can export to the USA, Canada, and other countries.

“

GMSacha Inchi Beverage is the only real superfood beverage for 2022 looks for it in a store near you”

*Nanny Katharina (Kate) Bahnsen*

What makes it so unique is that we have cultivated a way to work with Sacha Inchi. Sacha Inchi is a seed that can be consumed as a snack. It's high in Omegas 3,6 and 9. It's also a complete vegan protein that has all nine essential Amino Acids. We are currently producing Sacha Inchi Beverage, Sacha Inchi Seeds, and Sacha Inchi Powder. Sacha Inchi is a difficult superfood, it can be difficult to

cook properly. Sacha Inchi uncooked or not cooked properly can be a health hazard, and it also has a horrible bitter taste.

Therefore, on top of being the only company on the market that can properly produce Sacha Inchi, we also have a large social project. We work with farmers in Colombia to replace their illicit crops with Sacha Inchi, this is part of the social project we are doing to help farmers and their families in Colombia.
