

Yucreat to announce its first two projects from the public

After its initial launch and tuning with its first 15,000 members, Yucreat is now ready to begin the next phase of its smart-contract integration.

LUXEMBOURG, January 1, 2022
/EINPresswire.com/ -- After its initial launch and tuning with its first 15,000 members, Yucreat is now ready to begin the next phase of its smart-contract integration with the general public.

"Our community has seen staggering growth since we opened these new features to the close community of Yucreat. Now people can Stake tokens on real factual ideas and material resources. We wanted to bring a wind of change to the ecosystem, but we seem poised for intense disruption!"

“

Since mid-December, the Dapp has been running quite smoothly, and we are very proud of the new Staking features implemented by the team.”

Martin Champagne

Yucreat is running its [Airdrop](#) round at the moment and will be distributing its tokens by February 1st. With the overall success of the community and requests by members to release more projects, Yucreat will open two more projects from the public by January 15th.

About Yucreat:

Yucreat is reinventing innovation by providing users with an easy and cheap way to make contacts, accomplish tasks, find skills, display results to potential employers, and empower resource owners. Yucreat unites Real Life production to a Collaborative environment with Defi. It offers crypto payments to freelancers, innovators and sellers. Thru its marketplace, Yucreat facilitates the process of innovation up to the market distribution.
