

# SpecTruth announces ten (10) planned airdrops of social benefit meme tokens for its STRUE holders in 2022 .

*SpecTruth will reward STRUE holders while raising awareness and millions beginning with ten charitable causes. STRUE is SpecTruth's native metaverse token.*

KIEV, KIEV OBLAST, UKRAINE, January 2, 2022 /EINPresswire.com/ -- SpecTruth, the developers of STRUE, have announced that they plan to mint and deploy ten (10) new social meme tokens. Once per month beginning in March until 2023. The goal for the monthly minting and deployment is to build awareness for various social causes, provide funding, and dispel the stigma that cryptocurrency trading is bad for the environment.

Speculative traders are invested into various meme tokens like Shibu Ina and Doge with little to no social benefit. The developers of SpecTruth want to donate a large portion of the initial minting to the charities so the value of the donation can increase if and when the [token](#) does. Each of these tokens will have their virtual kiosk where the public can see how the funds were dispersed and results of the charitable giving. Moreover, STRUE holders will receive airdrops of each new minting.

STRUE token

STRUE is in pre-sale and is planning to be listed on an exchange in the next 60 days. STRUE holders will receive five (5) tokens for every STRUE token owned as the new meme tokens are being deployed. For example, a person holding 1,000,000 STRUE tokens would receive 5,000,000 #AMZN tokens for free as a reward if they own STRUE

when #AMZN is deployed. This will be true for all new meme tokens deployed throughout the year. Essentially, a holder of STRUE who holds their token all year would benefit from all of the meme coins deployed.

Holders of STRUE and the new meme tokens will be able to download and display their support of these causes the same way people wore colored bracelets for various charities.

The planned airdrops will start with and grow as demands grows:
