According to the research published by Allied Market Research, the global luxury car market generated \$495.7 billion in 2018, and is estimated to garner \$733.2 billion by 2026, registering at a CAGR of 5.2% from 2019 to 2026. The report offers an extensive analysis of changing market dynamics, key segments, current market size & estimations, market share, and competitive landscape.

On the basis of fuel type, the gasoline segment accounted for the highest share of the total

market, contributing for more than two-thirds of the global luxury car market in 2018, and is expected to maintain dominance in terms of revenue by 2026. However, the electric segment would grow at the fastest CAGR of 9.7% during the forecast period, owing to increase in fuel efficient vehicle demand and government regulations taken for emission control.

On the basis of vehicle type, the sport utility vehicle (SUV) segment held nearly half of the total share of the market in 2018, and is expected to lead during the forecast period. Moreover, this segment is estimated to grow at the fastest CAGR of 5.9% from 2019 to 2026. This is attributed to inclination of new luxury SUVs range that provide better comfort and driving experience. The research also discusses the segments such as sedan and hatchback.

Based on the region, North America is expected to register the highest CAGR of 6.7% from 2019 to 2026, owing to major players foraying into the region and opening of new car stores. However, Asia-Pacific held the largest market share in terms of revenue, accounting for nearly half of the total market share in 2018, and is expected to continue to maintain its leadership status during the forecast period. This is attributed to emergence of new range of luxury vehicles and expanding automobile manufacturers in the region.
