

Why Automatic Dog Feeder Market Is Getting More Popular In The Past Decade.

Automatic Dog Feeder Market is Expected to Reach 998.7 Million by 2030

PORTLAND, PORTLAND, UNITED STATES, January 3, 2022

/EINPresswire.com/ -- According to the report published by Allied Market Research, the global [automatic dog feeder market](#) generated \$344.6 million in 2020, and is anticipated to reach \$998.7 million by 2030, manifesting a CAGR of 8.0 % from 2021 to 2030. The report offers an in-depth analysis of the market size, future estimations, emerging and current trends, and key players.

Rise in the working population including men and women, increase in the rate of adoption of dogs, and surge in health awareness concerning pet health are the key factors driving the global automatic dog feeder market. However, inclination towards other pets such as cats along with noisy feeding machines can hamper the automatic dog feeder market. On the other hand, a smart pet feeder with a built-in camera and voice assistants and online availability of the product create opportunities for the dog feeder market players.
