The December community favourite poll was carried out on the GalleonCoin Discord during the last week of December. The team extends its warmest congratulations to the winners, whose constant memetic contributions kept the vote so tight that in the end they agreed to split 1st and 2nd prize 50/50. The Galleoncoin team has tweaked the monthly community favorite by splitting it into 3 categories, Memes, Articles, and Coding. 1st prize in each category will be 200,000 GALE.

Other community projects include a paper-wallet generator and a more efficient wallet for Raspberry Pi.

Project lead Forkbeard said "I am very pleased with how the community has stepped up in setting this project on the path to success. We're like a family here. My own kids and nephews are learning a lot about community management & Unity development for the upcoming game, and we try our best to extend that cozy atmosphere to anyone not trolling us too outrageously".

GalleonCoin (GALE) is a cryptocurrency project based on an independent mainnet. It offers low-fee, fast, private, & secure transactions for all users as well as within the GalleonCoin Ecosystem.
