

Integrated Global Services (IGS) Acquires Amstar

IGS has acquired GE Steam Power's on-site thermal spray coatings technology. AmStar offers a proven track record of reliable boiler pressure part protection.

RICHMOND, VIRGINIA, UNITED STATES, January 5, 2022 /EINPresswire.com/ -- Integrated Global Services, Inc. (IGS, www.integratedglobal.com), a leading provider of thermal spray surface protection solutions and portfolio

company of investment affiliates of J.F. Lehman & Company ("JFLCO"), is pleased to announce it has acquired GE Steam Power's on-site thermal spray coatings technology, AmStar. AmStar's 888 material and related corrosion- and erosion-resistant coatings offer a proven track record of reliable [pressure part protection](#) throughout the Power Generation industry for over two decades.

“

This is tremendous news for our customers. Our acquisition of Amstar represents another step in IGS's mission to be the most valued provider of surface solutions for mission-critical equipment.”

*Rich Crawford, President and
CEO of IGS*

“This is tremendous news for our customers,” said Rich Crawford, President and CEO of IGS. “We are excited to further enhance IGS's broad [portfolio of bespoke solutions](#) by acquiring the patented AmStar 888 technology. This combined solution set provides historical customers with an expanded offering to address their surface solution needs. Our acquisition of Amstar represents another step in IGS's mission to be the most valued provider of engineered solutions in the world for mission-critical equipment, and our ongoing commitment to support GE customers in the U.S., Europe, South America, and Asia.”

Integrated Global Services

Based in Richmond, VA, IGS is an international, private equity-backed company with over 30 years of experience in providing in-situ internal thermal spray surface protection solutions, internal ceramic coating solutions, and environmental products that focus primarily on metal

wastage reduction, corrosion mitigation, process efficiency improvements, and emissions reduction. Specializing in customized, engineered solutions, IGS is the largest provider of in-situ thermal spray and ceramic surface protection.

IGS maintains global operations with locations across the U.S., Canada, Europe, the Middle East, Africa, and Asia.

For more information on our global service capabilities, along with details on how to contact IGS personnel who can support your needs, refer to the IGS website at integratedglobal.com or email: info@integratedglobal.com.
