

Power Tools Market worth \$51.2 Bn billion by 2026 - Exclusive Report by FMI

Power Tools Market to Surpass US\$ 33.36 Bn in 2021 as Preference for Cordless and Sustainable Power Tools Grows across Diverse Industries

JUMEIRAH LAKES TOWERS, DUBAI, UNITED ARAB EMIRATES, January 4, 2022 /EINPresswire.com/ -- The global power tools market is expanding at a significant rate on the back of consumer inclination towards cordless power tools. This is anticipated to remain the key defining factor in the power tool market..

As per Future Market Insights, sales of power tools are expected to reach US\$ 33.36 Bn in 2021. Rising preference for sustainable electric power tools have amplified the demand in the market. The report stresses on impressive commercial potential of power tools.

Their application in diverse applications and integration of cutting-edge features such as electric motors will aid the overall expansion of the market in the coming years.

The unprecedented outbreak of COVID-19 dampened the sales owing to the disruption in manufacturing activities and supply-chain across the globe. However, with expedited vaccination drives and growing demand from several end-use industries such as aerospace, automotive, and furniture, sales of power tools are expected to increase over the forthcoming decade.

Historically, the market grew by 3.7% between 2016 and 2020. As inclination towards online sales channel grew during the FQ-20, manufacturers' reliance on e-commerce platforms to sustain their revenue during the pandemic surged.

As per FMI, online sales channel will report highest growth with increasing focus on diversification among market players. Hence, demand for power tools is expected to surge in response to the increasing penetration of e-commerce platforms.

In order to meet the surging demand for high efficiency and advanced power tools, leading manufacturers are adopting advanced technologies such as cordless power tools with lithium-ion batteries to improve the shelf life.

For instance, in 2019, Stanley Black & Decker announced the launch of DEWALT FLEXVOLT 60V MAX* 2-Inch Brushless SDS MAX Combination and cordless Hammer (DCH773), comprising features such as e-clutch system and with active vibration control 9.0Ah battery technology with maximum control for bind-up situations.

Such developments are expected to aid the [growth in global power tools market](#). As per FMI, the overall sales of power tools market are likely to surge at over 5.1% CAGR between 2021 and 2031.

"Power tools manufacturers are adopting advanced technologies to offer energy-efficient electric power tools. In order to cater the surging demand, leading players also are collaborating with regional distributors. This will not only allow them to expand their portfolio but help them gain competitive edge s over the coming years," says the FMI analyst.

Key Takeaways from Power Tools Market Survey

Based on product type, drilling tools are expected to remain highly-sought after, accounting for over 17% of global market share

Over 30% of power tools sales are contributed by construction industry, especially in the U.S., the U.K., and China

In terms of technology, 6 out of 10 power tools sold is expected to be from electric segment through 2021

Offline sales channel will dominate the market, accounting for over 64.3% of global market share in 2021

The U.S. power tools market is expected to account for over 62% of overall market share in North America

Italy and France are expected to have a positive demand outlook across Europe through 2031 owing to the surging demand from construction industry

Key Drivers

Increasing adoption of cordless power tools and integration of advanced technology will spur the demand for power tools across the globe

Rapid expansion of construction industry is expected to have a positive domino effect on the sales of power tools

Burgeoning demand for electric fastening tools in the industrial sector will accelerate the growth in the market

Key Restraints

Growing preference for lightweight and ergonomic power tools is expected to hamper the growth in the market

Stringent regulatory rules that power tool manufacturers must comply with to ascertain safety standards might create obstacles.

Competitive Landscape

Introduction of cost-competitive products by leading players has resulted in increased competition in the market. Emerging players are focusing on adopting advanced technology to target baby boomers and millennials for revenue generation.

Some of the leading players are also adopting robust expansion strategies such as mergers and acquisitions to expand their product portfolio and customers base. New product launches are also one of the major strategy adopted by key players to sustain their position in the industry.

For instance,

In May 2021, Bosch Power Tools announced the availability of its cordless PROFACTOR 18v ½-In. Impact Wrench with friction ring and PROFACTOR 18V ¾-In. Impact Wrench with Friction Ring and Thru-Hole (GDS18V-770), built for high performance BITURBO brushless technology, made to deliver high power for tackling brutal applications.

In March 2020, Makita announced the launch of its new 18V X2 LXT cordless string trimmer, with power equivalent to 30cc gas string trimmer, built for professional landscapers for aggressive applications, such as cutting tall weeds and bushes.

HiKOKI power tools announced the three-year warranty on its automatic heavy duty power tools such as electric and cordless tools for convenient service.

Some of the leading players operating in the power tools market profiled by FMI include:

Robert Bosch Power Tools GmbH
Stanley Black & Decker, Inc.
Makita Corporation
Hilti Corporation
Atlas Copco AB
Techtronic Industries Company Limited
Snap-on Incorporated
Actuant Corporation
Husqvarna AB
Illinois Tool Works
Panasonic Corporation
Hitachi Corporation
Ingersoll Rand, Inc.
Enerpac Tool Group
Kyocera Corporation
Apex Tool Group
Ridgid Tools
Koki Holdings Co., Ltd.
Others

More Insights on the Global Power Tools Market

Future Market Insights, in its new offering, presents an in-depth analysis on the global power tools market. The study divulges essential insights on the power tools market for the historic period (2016-2020) and for the forecast year (2021-2031) as well. In order to gain compelling insights on the current growth drivers, trends, and opportunities, the market is segmented on the basis of:

Product:

Drilling Tool
Fastening Tool
Heat Gun
Angle Grinder
Chain Saw
Orbital Sander
Jigsaw
Impact Wrench
Circular Saw
Technology:

Electric
Corded
Cordless
Pneumatic
Application:

Manufacturing
Metal Fabrication
Automotive
Railways
Aerospace
Furniture
Others
MRO Services
Facility Management
Automotive
Aerospace
Other Industrial
DIY
Construction
Sales Channel:

Online
Offline
Region:

North America
Latin America
Europe
East Asia
South Asia
Oceania
Middle East and Africa (MEA)
