

Mechanical Ventilators Market Revenue Growth, Key Players, Qualitative & Quantitative Analysis

The ever-increasing demand for portable ventilators has supplemented the need for transport ventilators across the mechanical ventilator market.

PORTLAND, OREGON, UNITED STATES, January 5, 2022 /EINPresswire.com/

-- Global Mechanical Ventilator Market was valued at \$2.24 Billion in 2017, and is projected to reach \$3.81 Billion by 2025, growing at a CAGR of 6.8% from 2018 to 2025. The intensive care unit segment accounted for more than half of the total market share in 2017. Mechanical Ventilators market is divided into non-invasive ventilation and invasive ventilation. The non-invasive ventilation segment is expected to grow at the highest rate from 2018 to 2025, attributed to the fact that noninvasive ventilation (NIV) is associated with a lower risk of mortality as compared to invasive mechanical ventilation (IMV).

The intensive care unit segment generated the maximum revenue and is expected to maintain this trend in terms of both value and volume during the forecast period, owing to rise in ICU bed admissions and high demand of advanced & customizable mechanical ventilators based on specific need of ventilation.

The major companies profiled in this report include Becton, Dickinson and Company (CareFusion/Vyaire Medical, Inc.), Carl Reiner GmbH, Draegerwerk AG & Co. KGaA, Getinge AB (Maquet Holding B.V. & Co. KG), General Electric Company (GE Healthcare), Hamilton Medical AG, Koninklijke Philips N.V., Medtronic, Plc. (Covidien Ltd.), Mindray Medical International Limited, and Smiths Group, Plc. The other players in the value chain include Tecme SA, ResMed Corp., Fisher & Paykel Healthcare Limited, Air Liquide Medical Systems, ZOLL Medical Corporation, Allied Healthcare Products, Inc., and Schiller Healthcare India Pvt. Ltd.

In addition, escalating government expenditures in healthcare that promote adoption of mechanical ventilators in the developing countries, such as China and India, propel the market growth. The swelling number of intensive care units was observed in China in 2016, which led the government to continue to be a large buyer. Such circumstances positively affect the market

growth.
