

Best Research Report on Laparotomy Sponges Market May See a Big Move by 2026 Covid-19 Analysis | CAGR 7.3%

Laparotomy is an open surgical operation of abdomen, in which incision is made for the treatment of various disorders of the abdominal cavity.

NE WIN SIVERS DRIVE, PROVINCE: -
PORTLAND, UNITED STATES, January 5, 2022 /EINPresswire.com/ -- According to the report by Allied Market Research, titled, "[Laparotomy Sponges Market](https://www.alliedmarketresearch.com/request-sample/3696) by Product (Radiopaque Laparotomy Sponges, Traditional Laparotomy Sponges, and Radio-frequency Identification Laparotomy Sponges), Sterility (Sterile Laparotomy Sponges and Non-sterile Laparotomy Sponges), and End User (Hospitals and Surgery Centers) - Global Opportunity Analysis and Industry Forecast, 2017-2025". The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

Laparotomy Sponges Market

The factors that drive the growth of the laparotomy sponges market include rise in prevalence of colorectal cancer, increase in cesarean births worldwide, surge in geriatric population, and easy affordability. However, increase in demand for minimally invasive procedures instead of open surgeries and issues related with retained sponges restrain the market growth. Conversely, the development of advanced laparotomy sponges and high growth potential in the untapped emerging economies are expected to provide lucrative growth opportunities for the key players.

1) The COVID-19 impact on the Laparotomy Sponges Market is unpredictable and is expected to

remain in force till the fourth quarter of 2021.

2) The COVID-19 outbreak forced governments across the globe to implement strict lockdowns and banned import-export of nonessential items for most of 2021. This led to sudden fall in the availability of important raw materials.

3) Moreover, nationwide lockdowns forced manufacturing facilities to partially or completely shut their operations.

4) Adverse impacts of the COVID-19 pandemic have resulted in delays in activities and initiatives regarding development of reliable and innovative drone analytics systems globally.

Radiopaque sponges segment to remain dominant in terms of revenue

The radiopaque sponges segment contributed more than half of the total share in 2017, owing to their wide-scale availability and their ability to prevent retained sponges. This segment would maintain its dominance throughout the forecast period. The radio-frequency identification (RFID) sponges segment would grow at the fastest CAGR of 8.8% from 2018 to 2025, owing to technological advancements in the sector. The traditional sponges segment is expected to witness steady growth during the forecast period.

Sterile laparotomy sponges to be lucrative through 2025

Sterile laparotomy sponges segment accounted for more than three-fourths of the total market share in 2017 and is expected to maintain its lion's share by 2025 registering the fastest CAGR of 7.6% from 2018 to 2025. This is attributed to their ability to be contamination-free, and thus, prevent infections. The non-sterile laparotomy sponges segment would grow at a steady rate through the forecast period.

Key findings of the Radiopaque Sponges Market report:

- This report entails a detailed quantitative analysis along with the current global Laparotomy Sponges Market trends from 2018 to 2025 to identify the prevailing opportunities along with the strategic assessment.
- The Laparotomy Sponges Market forecast is studied from 2018 to 2025.
- The Laparotomy Sponges Market size and estimations are based on a comprehensive analysis of key developments in the endoscopic retrograde cholangiopancreatography industry.

- A qualitative analysis based on innovative products facilitates strategic business planning.
- The development strategies adopted by the key market players are enlisted to understand the competitive scenario of the Laparotomy Sponges Market.
