Regional Analysis :-

North America is expected to lead in terms of liquid detergent market share during the forecast period; however, the region is poised to grow at sluggish CAGR during the forecast period.

The Asia-Pacific market is anticipated to register highest CAGR during the forecast period, owing to increase in household income, rapid urbanization, rise in middle-class population, easy access to goods through development of retail channels, and rise in penetration of washing machines. These factors plays a vital role during the regional as well as global liquid detergent market forecast.
