

Virtual Private Network (VPN) Market Focuses On Providing Fast And Uninterrupted Connectivity

The Business Research Company's VPN Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

LONDON, GREATER LONDON, UK, January 5, 2022 /EINPresswire.com/ -- Growing technological advancements are gaining the popularity in the global [virtual private network \(VPN\) market](#). TBRC's virtual private network (VPN) market outlook shows the increase in investments in VPN technologies to provide fast and uninterrupted internet connectivity and remote

accessibility. For instance, in 2020, Microsoft Corporation, a US-based technology company has integrated advanced features in its VPN Gateway. This Microsoft Azure VPN Gateway connects the user's surrounding networks via site-to-site VPNs, similar to how the user connects to a remote branch office. In operating systems such as Linux and Windows, this feature allows an end-user from a remote location to maintain user profiles in the central database.

The global virtual private network (VPN) market size is expected to grow from \$38.56 billion in 2021 to \$45.89 billion in 2022 at a compound annual growth rate (CAGR) of 19.0%. The change in growth trend of the virtual private network (VPN) market is mainly due to the companies stabilizing their output after catering to the demand that grew exponentially during the COVID-19 pandemic in 2020. The virtual private network (VPN) market share is expected to reach \$91.20 billion in 2026 at a CAGR of 18.7%.
