Built In's 2022 Best Places to Work

Every year, Built In determines the winners of Best Places to Work based on an algorithm, using company data about compensation, benefits and companywide programming. To reflect the benefits candidates are searching for more frequently on Built In, the program also weighs criteria like remote and flexible work opportunities, programs for DEI and other people-first cultural offerings.

“

At Compt, we believe that the most innovative companies are the ones that build an inclusive workplace.”

“It is my honor to extend congratulations to the 2022 Best Places to Work winners,” says Sheridan Orr, Chief Marketing Officer of Built In. “This year saw a record

number of entrants — and the past two years fundamentally changed what tech professionals want from work. These honorees have risen to the challenge, evolving to deliver employee experiences that provide the meaning and purpose today's tech professionals seek."

"At Compt, we believe that the most innovative companies are the ones that build an inclusive workplace," says CEO and Founder of Compt, Amy Spurling. "In order to create a platform to support companies in that way though, we first had to create a company that reflects those values — and this award celebrates that intention."

Compt was dreamt up by a five-time CFO and COO who was inspired by the challenges she met as an executive. The founder of Compt knew employers like herself would eventually have to face supporting employees through benefits. Compt was born as a solution to make an easy-to-manage platform for companies to implement perks that are designed for diversity and inclusion. Compt is 70% BIPOC, female-founded and the only perks software that offers truly inclusive perks for all employee needs while being 100% tax-compliant.
