

Trine Towers: A Housing Inventory in Ghaziabad's Indirapuram That No One Saw Coming

GHAZIABAD, UTTAR PRADESH, INDIA, January 6, 2022 /EINPresswire.com/ -- Indirapuram, Ghaziabad: In the last few months, a 'red wave' has apparently taken over Ghaziabad's most sought-after residential locality – Indirapuram, with red hoardings and news adverts turning heads by offering a home in the region for a relatively low price. For homebuyers who have long hoped for a home in the area but have not been able to do so due to exorbitant property prices, it seems no short of a miracle. Add to that the fact that this is the last housing inventory available for possession this year, and you have yourself a home that offers the best value for money in Ghaziabad. But the big question remains: what made it possible? Apparently, [Aegis Homes](#), a housing developer based in Indirapuram, in their bid to address the vacuum of trust and quality in the local housing industry, has recently taken up an ambition to invest in housing projects around Delhi-NCR with an aim to redevelop them with a new imagination and technology.

Aegis Trine Towers

The first leg of this ambition came in the form of [Trine Towers](#) – an impressive residential project that may prove to be one of a kind in the vicinity upon its completion. Planning on investing generously, [Aegis](#) has drawn a comprehensive plan to redevelop the project – previously known as Hindon Green Valley – to suit the needs of mid-segment homebuyers in the area. The plan mainly includes limiting business diversification, leveraging local expertise, undertaking micro-location research, employing advanced technology, and optimizing the gross budget to complete the project in a timely fashion as well as make way for more upgrades in it that are in line with the needs of modern homebuyers.

Beyond the basics, Trine Towers boasts high-end amenities that are rarely seen in residential projects of its price range. From an all-weather swimming pool to a plush clubhouse, the impressive range of residential highlights makes this project one of the most sought-after

projects in the area within only 2 months of its introduction. That is made evident by the inflow of inquiries and bookings that the project has witnessed of late, as revealed by Rakesh Bamola, Business Head, Aegis Homes, who also discussed how the frequency of bookings at the project has increased in the last two months by about 125% from the previous value.

Considering the way Trine Towers is being positioned by Aegis Homes, there seems to be no other project in Indirapuram that is as easy on the pocket as Trine Towers is, while still offering the premium residential conveniences that it's offering, making for a surefire recipe for its success.
