

Innovation in Medical Technology to Go-To-Market:

Johari Digital Healthcare inaugurated the 'Johari Center of Excellence' in IIT-J Technology Park on 3rd January 2022

JODHPUR, RAJASTHAN, INDIA, January 6, 2022 /EINPresswire.com/ -- Most research and innovations from Academia end up in publications or are shelved, but now with Industry and academia collaboration it will have chance to get converted into a real product through engineering and transfer to manufacturing cycle along with required regulatory compliances.

[Johari Digital Healthcare Ltd.](#) (JDHL) inaugurated the Johari Centre of Excellence (CoE) at the IIT Jodhpur Technology Park on Monday, 3rd January, 2022. The grand inauguration was done in the presence of esteemed guests including Prof. Santanu Chaudhury, Director, IIT Jodhpur, Prof. Sampat Raj Vadera, Deputy Director, IIT Jodhpur, Mr Satyendra Johari & Mrs Nisha Johari, Founders, Johari Digital Healthcare Ltd. and other dignitaries.

Mr. Satyendra Johari, CEO & Founder, Johari Digital (JDHL) said it is a win-win situation for both JDHL and IIT Jodhpur. This collaboration will enable core research into innovations for world-class product development in the country. The R&D needs lots of efforts before the product gets into commercialization with complete quality controls and Johari Digital can play an important role to bridge the gap. Mrs. Nisha Johari, Co-founder, Johari Digital, shared that having such a CoE would provide an opportunity to the budding engineers to be absorbed for world class product development within the country and can help stop the brain drain from premium institutes like IIT. Through this venture we look forward to a great future.

At this occasion, Prof. Santanu Chaudhury expressed his happiness for this initiative and mentioned that there are several emerging technologies coming up at IIT Jodhpur potentially in

different spaces. Some of these technologies are in the space of electronics as well as mechanical applications where joining hands with Johari will bring a set of products through this collaboration which will be conceptualized, indigenously developed and engineered so as to bring up products of Indian origin. This CoE will lead to the development of products which have originated from India, the entire IP as well as the manufacturing capability will also be with India. For a new IIT like IIT Jodhpur this alliance with a Global player like Johari in Jodhpur has a huge value. This will nucleate a MedTech industrial ecosystem in the country.

During the event, Johari Digital showcased numerous advanced technologies in healthcare that are Engineered to manufacture for Global Industries. Johari Digital is a global Medtech company with 40+ years of expertise in medical device manufacturing. The manufacturing facility complies with MDSAP, ISO 13485:2016 and FDA (21 CFR 820) standards, and processes. Johari's versatile product development portfolio has innovative life science products, diagnostic devices, new AI & ML based Medical Technologies and therapeutic devices. The company provides manufacturing solutions to global MedTech giants as well as innovative start-ups. Johari will now expand its functions actively on the IITJ campus and the space will cater to the growing demands of the fast-evolving healthcare and medical market.

This collaboration is based on the vision to make India self-reliant in Medical Device Manufacturing. It was felt that JDHL has taken a major leap towards strengthening India's healthcare backbone. With the healthcare market jumping to contemporary technologies of Artificial intelligence and data-based remote healthcare, this CoE at IIT Jodhpur will establish a unique synergy between academia and the industry for advanced healthcare technologies. The new space brings an opportunity to develop accessible, affordable and quality healthcare devices at a higher pace and scale to meet the global demand.

As a MedTech Manufacturing company based in India, Johari caters to global corporations looking for outsourcing their manufacturing.
