

Allegrì by Kalco Lighting and Vanessa DeLeon Team Up for New ILUMINE Collection for Residential Applications

Crystal lighting collection merges brilliant Firenze™ crystal with modern, stylized designs.

LAS VEGAS, NEVADA, UNITED STATES, January 6, 2022 /EINPresswire.com/ -- Allegrì by Kalco Lighting, a leader in modern luxury, high-quality crystal lighting with state-of-the-art LED technology, and interior designer Vanessa DeLeon introduce ILUMINE, a new collaborative collection of dream-like lighting pendants, sconces and chandeliers that merges the designer's modern, stylized designs with classic décor and Allegrì's signature precision-cut Firenze™ crystal and advanced LED technology resulting in a rich, glamorous style.

Celebrating Vanessa's cultural composition, love for art deco and the physical body, her new collection contains clear Firenze crystal and brass, matte black and polished chrome accents for elegant indoor aesthetics. The ILUMINE contemporary collection includes:

- Inspired by the New York City skyline, the Orizzonte collection dazzles the eye and makes an impact. Created using layered Firenze crystal in multiple heights to create texture with simple squares embedded in the frame for a modern silhouette. This collection of island light pendants features an LED downlight and is available in both matte black and polished chrome finishes.

- Inspired by physical form and a sense of surrealism, the Venere Collection elicits curiosity for lighting as art. Crafted in Cast solid brass, featuring clear Firenze crystal drops and bobeches, the collection is characterized by a gentle, extended hand and is available in historic brass and pewter. The collection consists of a 1-tier and 2-tier chandelier along with a matching 2-light wall sconce.
