

Cobra Legal Solutions Partners with Infinnium, Bolstering Suite of Technology Solutions

Cobra Adds New GRC & Privacy Technologies

AUSTIN, TEXAS, USA, January 6, 2022 /EINPresswire.com/ -- Cobra Legal Solutions, a leading legal operations outsourcing provider (LOOP), has adopted the 4iG and ObscurePI™ technologies from

[Infinnium](#) to augment their growing data breach review and Data Subject Access Request (DSAR) review offerings. The 4iG platform utilizes artificial intelligence and machine learning to find, collect, categorize, and illuminate important patterns in data like competitive information, sensitive data such as PII and privileged content, as well as people, places, ideas, and communications.

Using 4iG, we can quickly analyze data where it resides, take action, and gain deeper understanding of the players involved.”

Doug Kaminski, Chief Revenue Officer at Cobra

“Until now, finding sensitive and other targeted data has been a costly process involving many steps and hand-offs.

Using 4iG, we can quickly analyze data where it resides, take action, and gain deeper understanding of the players involved.” said Doug Kaminski, Chief Revenue Officer at Cobra. “If needed, we can also automatically redact, quarantine, or anonymize data to ensure no sensitive or confidential information is leaked. This is very helpful with data breach reviews and Data Subject Access Request (DSAR) compliance.”

4iG is the first end-to-end information governance toolset that includes the ability to search, collect, export, remove, move, or encrypt documents as well as redact or anonymize sensitive information within documents where they reside. Included in the suite is the industry’s first ever toolset for redacting native documents of any file type, thus allowing companies to take control over their data and information in a manner that has never been available in the past.

About Cobra Legal Solutions

Cobra Legal Solutions was founded over a decade ago by attorneys who knew they could improve the efficiency of legal support services. Cobra’s diverse team of like-minded professionals combine deep experience in eDiscovery, contracts and due diligence, document review, legal research, and technology to deliver consistent, measurable results for corporate legal departments and their outside counsel.
