

# PayCaptain becomes world's first B-Corporation Certified Payroll Company

*Cloud Payroll Solution, PayCaptain, is awarded B-Corp Certification and becomes the world's first payroll technology company to achieve the status.*

LONDON, ENGLAND, January 7, 2022 /EINPresswire.com/ -- PayCaptain, the pioneering London-based cloud payroll service provider, has been awarded B-Corporation status, the first certification worldwide in the payroll industry. B-Corporation status sets companies apart by certifying their commitment to their social and environmental impact, not just profit-making. In becoming a B-Corporation certified, PayCaptain has demonstrated the company is a genuine advocate for stakeholder benefits – including their workforce, their clients, the environment, the local community and their shareholders.

To become B-Corporation certified, PayCaptain met stringent selection criteria, whilst demonstrating their social and environmental impact. The company was assessed on multiple factors including governance, employee benefits, stakeholder engagement and impact on the community and environment.

PayCaptain was launched in 2020 with big aspirations to help companies win the battle against financial stress in the workplace. The company adopted Pending B-Corporation status early in
