The American Association of Dental Boards is a national association that encourages the highest standards of dental education by promoting higher and uniform standards of qualification for dental practitioners. Membership is comprised of boards of dentistry, advanced education boards, present and past members of those boards, board administrators, board attorneys, educators, practitioners, and other oral health stakeholders.

As the national face of state dental boards, we influence the licenses of over half a million oral health practitioners through the regulation of dentists, dental therapists, hygienists, and assistants by our governing members.

Our mission is simple: To serve as a resource by providing a national forum for exchange, development, and dissemination of information to assist dental regulatory boards with their obligation to protect the public.
