Key Segments

By Type

Threaded Hammer Unions
Butt Weld Hammer Unions
Threaded and Butt Weld Hammer Unions

· By Material

Steel Carbon Steel chromium-molybdenum steel Plastic

By Pressure Ratings

500 PSI – 2,000 PSI 2,000 PSI – 5,000 PSI 5,000 PSI – 10,000 PSI 10,000 PSI – 15,000 PSI 15,000 PSI – 20,000 PSI

· By Industry Vertical

Oil & Gas Industry
Chemical Industry
Hydraulic Industry
Automotive Industry
Waste Water & Water Treatment Industry

· By Region

North America
US & Canada
Latin America
Brazil, Mexico, Argentina & Rest of Latin America
Europe
Germany, France, Italy, Spain, U.K., Benelux, Russia, and Rest of Europe
East Asia
China, Japan, South Korea
South Asia
India, Thailand, Malaysia, Indonesia and Rest of South Asia
Oceania
Australia and New Zealand
Middle East and Africa
GCC Countries, Turkey, South Africa, and Rest of Middle East & Africa

Who are the Key Manufacturers of Hammer Unions?

A large number of manufacturers and producers are present across the globe due to the rising industrial sectors. The hammer unions growth is fragmented in nature, as massive numbers of big companies are operating in global market.

A large number of manufacturers and producers are present across the globe due to the rising industrial sectors. The hammer unions growth is fragmented in nature, as massive numbers of big companies are operating in global market.

Some of the prominent players in market are

Worldwide Oilfield Machine **American Completion Tools** PRV industries NMT Engineering and Services Pvt. Ltd. Trupply LLC Valves & Fittings of Houston Inc. NOV Inc. **ASC Engineered Solutions** Komarine.com Manganga Engineering Co. **Tubes International** Kemper Valve & Fittings Corp. S. K. FORGEFIT LLP Sandong Metal Industry Co. Ltd. DIC Oil & Gas Tools Templar Industries, LLC.

Moreover, some of the manufacturers are dedicatedly focusing on product up-gradation, geographical expansion and much more. For instance, in 2020, Sandong Metal Industry Co., Ltd. launches four new hammer unions named as plug valve, relief valve, pup joint and trash catcher with the pressure rating of 1000 PSI to 1500 PSI.

Implementation of Hammer Unions in Waste Water & Water Treatment Plants to Handle the Spread of Covid-19

During the pandemic situation of COVID-19, the utilization of water are under close surveillance to provide sanitation and safe drinking water. This Covid-19 outbreak has generated uncertainty among the individuals. The waste water & water treatment is amongst the crucial services, and hence, the plants are operative for all the industrial and residential purpose. This outbreak has made the people more worried about clean water and sanitation. Hence, the investments in launching new wastewater and water treatment plants are likely to boost the growth in the global market.

Furthermore, the ageing <u>infrastructure of hammer unions</u> in the waste water & water treatment industries is the major concern in numerous regions. For instance, the US has a comprehensive network of old pipe-lines that are used to transport waste and fresh water. The hammer unions used in old infrastructure are also on the edge of replacement as the limit of operational life has been surpassed.

Hence, it is significant to replace the hammer unions to provide the streamlined flow of water and to improve the performance. Thus, the growing apprehension among the people for better

hygiene to produce significant prospects for the suppliers of hammer unions in the waste water & water treatment industry.

Why choose Fact.MR?

We carry immense pride in saying that our work is recognized by 150+ countries worldwide. Our experience is conveyed by the fact that we have published 6, 000+ reports, thanks to our dedicated team of professionals. With digital intelligence solutions, we support our clients in remaining at the driver's seat. Our crew of 300+ analysts are available 24/7 to offer dynamic updates regarding various verticals and companies.

Thank you for reading our report. For further queries and customization inquiries, please get in touch with us. Our team will ensure the report is customized to meet your requirements.
