/EINPresswire.com/ -- Here is the good news for everyone looking to use traditional natural stones to add to and enhance the attractiveness of their home. Manufactured stone veneer or [Simulated Florida keystone in Port St Lucie](#) can help you make an impact while also increasing the value of your home. The best part, just like natural stone veneer or keystones, simulated keystones come in a range of colors, patterns, and textures. Each of the stones coming from Simulated Keystone Corp. is deliberately created and cultured out of concrete, sand, and fiberglass as part of the company's commitment to delivering unmatched quality.

Simulated keystone was founded in 1980 by James McGrath in response to a growing demand for natural Florida keystone, which could only be obtained from a quarry near Florida City. James McGrath sought to capture its beauty as though each coral slab was a forgotten fossil. Each tile, slab, panel, column, or pool coping of
