

# NIVA Weight Loss Releases New Video Testimonials and Case Studies

*To bring awareness to the quality of patient support, NIVA Weight Loss announced the release of their latest video testimonials and case studies.*

JACKSONVILLE, FL, UNITED STATES, January 10, 2022 /EINPresswire.com/ -- [NIVA Weight Loss](#) announced the release of their latest video [testimonials](#) and case studies that highlight the company's quality products and dedicated customer service. The video features real patients who went through the program from NIVA Weight Loss. With these video testimonials, NIVA Weight Loss aims to help their neighbors lose weight, get healthy and start living the life they deserve.

In a statement, [Dr. Foss](#) – NIVA Weight Loss program creator said, "I want to encourage you to recommit to your health, not just for yourself but for your entire family and those around you who are going to benefit from a much healthier and more energetic you." The practice's attention to its patients shines in its collection of success stories. NIVA Weight Loss programs are designed to meet every patient's individual needs so that every patient can become our next success story.

NIVA Health

NIVA Health Patient Support

NIVA Weight Loss is famous for its patient care. When a patient walks through the door, a NIVA Weight Loss expert greets them, asks questions, finds out about their needs, provides options, and puts together a tailored plan. Patients regularly give NIVA Weight Loss five-star reviews on Google and video testimonials highlighting their success. Our practice is dedicated to serving the community.

For the patient's convenience, they can book a private appointment through the NIVA Weight Loss website. After choosing an appointment type, they select their closest location, choose the date and time, and fill in their contact information. An expert meets with them to answer their questions and guide them through the program options selection.

What to Expect: When you visit one of NIVA Health's dedicated weight loss clinics, your journey begins with a body composition analysis. This gives us a more accurate understanding of your weight, including where your excess fat is stored in addition to percentage of body fat.

Losing weight makes you look and feel good, and it's also good for you. In addition to the obvious benefits of being on the Lifetime Wellness Program – such as immediate, daily results – the process changes you at a molecular level. This ensures the results you achieve can last a lifetime.

“

I want to encourage you to recommit to your health, not just for yourself but for your entire family and those around you who are going to benefit from a much healthier and more energetic you.”

*Dr. Rafael Foss*

The impact losing weight can have on your health cannot be understated. Weight loss can help with so many medical conditions and issues, including acid reflux, arthritis, depression, diabetes, fatigue, heart disease, high blood pressure, high cholesterol levels, joint pain, low libido, sleep apnea.

Weight loss questions, call their nearest location or use the live chat function to talk to an expert.
