

Foresight Mental Health Expands Access to High-Quality, Insurance-Covered Mental Health Care with Missouri Launch

The new market opening in the Show Me state will help patients in need

KANSAS CITY, MISSOURI, UNITED STATES, January 11, 2022

/EINPresswire.com/ -- [Foresight Mental Health](#), the groundbreaking

organization that's transforming mental health care throughout the United States, announces the opening of offices in Missouri. Driven by their commitment to improve access to mental health care, co-founders Douglas Hapeman and Matthew Milford have expanded Foresight's reach into the state of Missouri to help more people in need. Foresight leverages the latest

“

We've helped countless members with the use of our innovative technology and our compassion. The Foresight Missouri offices will provide greater access to care for Missourians in need.”

Laura R. Friedeberg, LMFT

technology to bring a new level of accuracy, efficiency, and affordability for its members, and offers a comprehensive array of services, including [psychiatry](#), neuropsychology, Transcranial Magnetic Stimulation (TMS), nutrition, and educational support. The Missouri Foresight offices are now open. To ensure the safety of all its members, Foresight also offers a TeleHealth option as recommended by local health officials.

•Columbia

- Independence
- Kansas City
- Lee's Summit

At the intersection of health care and technology, a key differentiator of Foresight is their all-inclusive team of psychiatrists, therapists, neuropsychologists, nutritionists, software engineers, data scientists, and researchers, all with the shared mission to revolutionize mental health care using modern technology. This cutting-edge approach enables Foresight's providers to deliver highly personalized, data-backed treatment plans for their members.

Foresight's founders launched their innovative organization with a vision of integrating mental health care treatment with technology to make people happier and healthier. "We're thrilled to open offices throughout Missouri to provide comprehensive mental health treatment for those in need. We founded Foresight to increase access to mental health care for everyone, and this remains our organization's primary goal," said co-founder Matthew Milford. Adds co-founder Douglas Hapeman, "We're focused on elevating both the patient and the provider experiences at Foresight. Our team is developing technology that helps us reimagine mental health care by leveraging data to empower providers to offer our members a higher level of care."

Foresight is dedicated to reducing the stigma of mental illness. With their commitment to transform the quality of mental health care, the team at Foresight provides their members with evidence-based treatment, advanced technology, continuous monitoring, and caring providers who offer an inclusive, patient-first approach to care.

"During this time in our country's history, it's more important than ever that mental health care is provided for all Americans," said Laura R. Friedeberg, LMFT, who serves as part of Foresight's clinical leadership. "At Foresight, we've helped countless members with the use of our innovative technology, as well as the compassionate care we provide. We're honored to open the Foresight Missouri offices to provide greater access to care for Missourians in need."

The sought-after office openings in Missouri mark a big milestone for Foresight. The new offices will provide people throughout the state with the care they need. According to a recent study, The Cost Of Mental Illness: Missouri Facts And Figures from the USC Schaeffer Center for Health Policy & Economics, there are approximately 17 mental health providers for every 10,000 residents in Missouri. This is lower than the national average, and not sufficient to serve the population in need of mental health treatment. In addition, the study also found:

- 6.0 of adults had a major depressive disorder
- 10.4% of adults had serious psychological distress
- Among adults who experienced Serious Psychological Distress, 27.1% had an unmet need of mental health treatment. 42.6% of these people did not receive mental health treatment, because they could not afford it.

Reimagining mental health care treatment is Foresight's commitment to all Americans, one person at a time. For more information, contact Foresight today: (800) 515-8313 | info@foresightmentalhealth.com www.foresightmentalhealth.com

###

About Foresight Mental Health

Foresight Mental Health is a national mental health and wellness organization with offices spanning the United States dedicated to reinventing mental health care using technology and data. With a network of hundreds of full-time therapists, psychiatrists, nurse practitioners, neuropsychologists, and nutritionists working in an integrative care delivery model, Foresight is

able to treat tens-of-thousands of in-network health insurance plan members. Powered by the Foresight platform, providers are able to deliver care integrating next-generation digital health applications and tools to offer personalized, data-backed treatment plans for patients.
