National Airlines.*

Canada & the U.K from South Korea and China. Lately, new variants of the COVID-19 virus are triggering a sudden spike in cases and there is an immediate requirement for multiple batches of testing kits, as early detection is vital to controlling the virus spread especially among children and those going back to work. “This is yet another mission by our teams to support governments in mitigating the recurring COVID-19 spread.

Our aircraft, crew, and teams will continue to ensure the timely delivery of emergency medical supplies and equipment to support the various nations fight against COVID-19”, Mr. Christopher J. Alf, Chairman, National Airlines. Since the start of the

COVID-19 pandemic, National Airlines with its B747-400 Freighter fleet of six aircraft have been at the forefront partnering with International Governments and Aid Agencies, coordinating missions, and delivering immediate medical supplies such as protective masks, PPE kits, oxygen cylinders, COVID-19 vaccines, and other equipment to crisis-hit regions.
