### Key Takeaways of the MOOC Market

In 2018, Business & Management courses generated more than 17% revenue in the market, owing to the high cost of degrees from the world's leading business schools. However, the cost is still lesser than the regular academic classes.

Over 950 universities have seamlessly integrated with MOOC providers, out of which close to 250 universities offer more than 10 different courses. The number of universities that offer more than 100 courses has been less than 25 till 2019

In the last 3 years, with the addition of more than 2,200 courses per year, the overall MOOC offerings have increased from around 1,050 in 2014 to more than 11,000 courses in 2018.

MOOC providers who have a strong foothold in the market are generating 30% more revenue, while emerging providers show above 40% growth in revenue generation in 2018.

Overall, the MOOC market is likely to create an absolute value opportunity of more than US\$ 62 Billion during the forecast period, adding 20X times more value in 2029 as compared to 2019

### Key Segments of the MOOC Market

Fact.MR's study on the MOOC market offers information divided into six key segments—customer category, primary objective, program, course, model and region. This report offers comprehensive data and information about important market dynamics and growth parameters associated with these categories.

### Customer Category
