Vocational Rehabilitation Services Global Market Report 2021 - COVID-19 Impact And Recovery

According to the Bureau of Labor Statistics, 17.9% of individuals with a disability were employed in 2020. In addition to this, in September 2020, Microsoft launched Microsoft Enabler Program in the Asia Pacific for removing the barriers to a more diverse workforce. The Microsoft Enabler Program provides cloud and AI training for the physically impaired and inclusive employment from non-profit organizations serving the physically impaired. Similarly, Amazon India partnered with Sol's ARC, an NGO working towards building learning content for children with disabilities. The collaboration is aimed at creating internship opportunities for individuals with autism and other intellectual disabilities. Vocational rehabilitation services market trends include such initiatives by organizations that aid the growth of the market as they provide the required pieces of training and skills for people with disabilities making them employable.

The global vocational rehabilitation services market size is expected to grow from \$80.43 billion in 2021 to \$82.72 billion in 2022 at a compound annual growth rate (CAGR) of 2.8%. Vocational rehabilitation services market growth is mainly due to the companies rearranging their

operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The vocational rehabilitation services market is expected to reach \$86.61 billion in 2026 at a CAGR of 1.2%.
