Key Takeaways of Appointment Scheduling App Market Study

Fact.MR states that web based appointment scheduling app has been preferred by nearly half of the enterprises in 2018 on the back of rising demand for convenient self-service scheduling.

The corporate sector is anticipated to be in the forefront for revenue generation among prominent software providers by 2027 despite increasing demand for appointment scheduling app in education, healthcare and other end use verticals

Incorporation of appointment scheduling app with ERP (Enterprise Resource Planning) technology would gain traction as service-based companies across the globe are increasingly utilizing online appointment scheduling platform for time saving

Out of every dollar spent on appointment scheduling app, more than half of it is pocketed by vendors based out of North America

Retailers are maximizing sales, reducing store operation costs, and tracking real-time calendars through streamlined appointment scheduling solutions.

Most of the players in the appointment scheduling app market are dependent on organic growth. Key companies are enhancing their business footprint by using niche-marketing and brand promotional strategies to explore untapped opportunities in the appointment scheduling app market.

“Improved appointment scheduling technology for facility management and increased demand for appointment scheduling app for smart city design and urban planning are expected to drive the growth of the appointment scheduling app market. However, the availability of open-source scheduling software is expected to restrict the growth of this market.” says the Fact.MR analyst.
