Analysis of COVID-19 impact

The outbreak of the pandemic has had a massive impact on the majority of industries and the dimension stone market was also not an exception in this regard. The report provides a detailed study on the micro- and macro-economic impact during the pandemic. Additionally, it emphasizes the direct impact of the COVID-19 pandemic on the dimension stone market in the

form of qualitative study. The report offers explicit details regarding the market extent and shares during this unprecedented time. At the same time, the major strategies adopted by the market players to combat the global crisis is also covered under the report. Last but not the least, the report highlights how the pandemic has distorted the supply chain of the market and takes in a post-COVID-19 analysis too.

Increase in concerns over the impact of building materials on the environment has boosted the adoption of sustainable construction practices across the world. This is expected to create a positive impact on the dimension stone market. Utilization of dimension stones in production of rough block is the major driver in the global market. However, one of the major factors hindering the growth of this market is the shortage of skilled labor. Skilled labors are required for installing dimension stones in construction applications such as flooring and roofing.
