

Shockwave Therapy at Gemini Health Group at No Extra Cost

Gemini Health Group is happy to announce that all our physiotherapists and chiropractor are now providing Shockwave Therapy treatments.

RICHMOND HILL, ONTARIO, CANADA, January 13, 2022 /EINPresswire.com/ -- [Shockwave therapy](#) has become a widely used clinical modality in recent years. Treatment with shockwave therapy speeds up the healing of stubborn and difficult injuries such as shoulder tendinitis/bursitis, tennis elbow, plantar fasciitis and many more slow-healing conditions.

Shockwave therapy stimulates the formation of new blood vessels over the course of several applications therefore substantially improving blood-flow to the injured tissue and speeding up the healing process. It was originally used in nephrology as a tool to break up kidney stones and is now commonly used in the treatment of erectile dysfunction. There is a growing body of evidence showing its significant effects on chronic musculo-skeletal injuries.

Many clinics are capitalizing on the growing popularity of shockwave therapy by charging extra for using it in [physiotherapy](#) and chiropractic sessions.

At Gemini Health Group in Richmond Hill we incorporate shockwave therapy into our physiotherapy and [chiropractic treatments](#) at no extra cost. Gemini Health Group physiotherapists and chiropractor use shockwave therapy based on the recommended
