Strategy Advisory Global Market Report 2022: Market
Size, Trends, And Global Forecast 2022 - 2026

According to '[Strategy Advisory Global Market Report 2022](#) – Market Size, Trends, And Global Forecast 2022-2026' published by The Business Research Company, the strategy advisory market size is expected to grow from \$134.14 billion in 2021 to \$150.41 billion in 2022 at a compound annual growth rate (CAGR) of 12.1%. The growth in the strategy advisory market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The strategy advisory market is expected to reach \$226.61 billion in 2026 at a CAGR of 10.8%.

The strategy advisory market consists of the sales of strategic advisory services by entities (organizations, sole traders and partnerships) that provide consulting services that aim to increase client's revenues, profit margins, market share and competitive advantage. Clients consult strategy advisors to seek advice on developing new markets, market entry and expansion strategies and reimagining their business models. Only goods and services traded between entities or sold to end consumers are included.

[Global Strategy Advisory Market Trends](#)

The launch of artificial intelligence is gaining popularity in the strategy consulting market. As this new technology develops, many companies are increasingly thinking about integrating artificial

intelligence (AI) into their operations.
