Developing Economies Prevail In the Global Market

The Mackerel market has been broadly divided into seven regions: North America, South America, Europe, CIS and Russia, Japan, APEJ and MEA. APEJ is anticipated to be the preeminent market in the global Mackerel market after Europe owing to the increasing population and coastal areas in the region promoting fishing and fish cultivation. The mackerel market is experiencing a massive shift due to the rising number of Total Allowable Catches (TAC) and fishing quotas across the world.

Australia and Iceland have raised its TAC for slimy mackerel by a stunning 450 percent and 14 percent, respectively. Nigeria also bears a significant market but is difficult because of the stringent trade restrictions. Norway is a significant exporter of the Norwegian whole frozen Mackerel in the world but due to its high price majority of the population is shifting towards the more economic Pacific Mackerel or to other substitute fishes. Japan imports nearly a 100,000 tons of Norwegian Mackerel per year although the amount of locally caught Mackerel is very high too.

The Mackerel market report will improve the revenue impact of businesses in various industries by:

Providing a framework tailored toward understanding the attractiveness quotient of various products/solutions/technologies in the Mackerel market

Identification of Mackerel market drivers, restraints and other forces impacting the global Market

Guiding stakeholders to identify key problem areas pertaining to their consolidation strategies in the global Mackerel market and offers solutions

Evaluation of current Mackerel market size and forecast and technological advancements within the industry.

Significant Competition to the Market by Substitute Products

In the fisheries industries, products such as Mackerel acquire their spot in both developed and developing regions being economical and beneficial for health, hence, boosting the market growth. However, the unavailability of the Mackerel in several areas is a factor hindering the market growth. It has gained demand in the market as customers are realizing the benefits of [omega-3 fatty acids](#) in their diet. It reduces cholesterol, boosts brain development and decreases the risk of depression and asthma.

There are several regions that are potentially interesting the market but are challenging due to the volatile trade restrictions that may get replaced at short notice. Along with the Mackerel, Nile perch, Tilapia, Pelagics, Salmon and Tuna are also common among consumers, rendering significant competition to the market as substitutes.
