

Renowned Ballard Chalmers Acquired by Microsoft Cloud Specialists, Transparency

The acquisition expands the team's modern application development capabilities on the Microsoft Azure platform.

WIMBORNE, UNITED KINGDOM,
January 14, 2022 /EINPresswire.com/ --

[Ballard Chalmers](#) is pleased to announce it was recently acquired by Microsoft Specialists, Transparency, in early December 2021.

Ballard Chalmers is one of the UK's leading [custom software development](#) and integration companies, specialising in engineering enterprise applications on the Microsoft Platform. The company is principally dedicated to custom software development and integration for the Azure Cloud, as well as on-premises and hybrid systems. Ballard Chalmers' technology expertise is in Microsoft .NET and Xamarin, SQL Server, and BizTalk Server, with its primary focus being on Microsoft Azure – Custom Development, Integration Services, Modern Data Warehouse, and Power Platform.

In the company's latest news, Microsoft Specialists, Transparency has acquired the reputable Ballard Chalmers in an exciting move made in early December 2021. The acquisition adds extensive additional skills to the collaborative, expert team and expands modern application development capabilities on the Microsoft Azure platform. The integration will take place gradually over time and bring numerous benefits to customers of both organisations.

"With a culture of putting clients first, we are proud to be joining the Transparency team and take our organization to the next level," says Andrew Chalmers (MD, Ballard Chalmers). "Through this move, our clients will receive significant expertise on the re-development and modernisation of legacy applications, providing them with the opportunity to migrate to optimised, cloud-native solutions on Microsoft Azure. This is the natural move for many of our clients who have already completed a 'lift and shift' of their legacy datacentre to Azure and now want the cost, performance, and resilience benefits associated with re-factoring their applications for the Cloud."
