## COVID-19 Scenario Analysis:

Pharmaceutical and biotechnological companies together with governments around the globe are working to combat with the COVID-19 outbreak, from supporting the development of vaccines to schedule for medicines supply chain challenges. Furthermore, there are around 115 vaccine candidates and other 155 molecules that are kept in the R&D pipeline in the coming years. Moreover, commonly used drugs such as hydroxychloroquine have seen huge boost in demand for the management of COVID-19. Increase in demand for drugs has been witnessed, which is likely to offer lucrative opportunity for manufacturers of COVID-19 management drugs, as many developed countries are short of these drugs. Owing to the demand for vaccine and treatment drugs for COVID-19, the pharmaceutical and biotechnology industry is anticipated to witness a substantial growth in the next few years.
