

Growing Demand For Nutritious Snacks Is Surging The Fat Substitutes Market Sales Growth

A recent study by Fact.MR projected the fat substitutes market to grow with a CAGR of 5.9% in the forecasted period

SEOUL, SOUTH KOREA, January 14, 2022 /EINPresswire.com/ -- A recent study by Fact.MR projected the [fat substitutes market](#) to grow with a CAGR of 5.9% in the forecasted period. With the increasing prevalence of obesity and overweight worldwide, there is a growing demand for nutritious snacks that are high in dietary fiber and protein and not contributing large amounts of sugar, sodium, and fat.

The increasing utilization of proteins extracted from animal tissues for reducing the fat content by 60-70% in deep-fried foods, for instance, seafood, poultry, meat, and other products is increasing the [demand for fat substitutes](#) globally.
