According to 'Healthcare Services
Global Market Report 2022 – Market
Size, Trends, And Global Forecast 2022-

2026' published by [The Business Research Company](https://www.thebusinessresearchcompany.com), the [healthcare services market](https://www.thebusinessresearchcompany.com) size is expected to grow from \$6.87 trillion in 2021 to \$7.55 trillion in 2022 at a compound annual growth rate (CAGR) of 9.8%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The healthcare services market is expected to reach \$10.41 trillion in 2026 at a CAGR of 8.4%.

The healthcare services market consists of sales of healthcare services and related goods by entities (organizations, sole traders and partnerships) that provide human healthcare services. This industry includes establishments that provide services such as medical and diagnostic laboratory services, dental services, nursing care, residential substance abuse and mental health facilities and other healthcare services.

Global Healthcare Services Market Trends

Many federal and state governments are either offering subsidized or free healthcare services to their citizens. Since most of the governments are offering quality healthcare services for free or subsidized rates, patients tend to opt for government healthcare services thereby, limiting the scope for private healthcare service providers.
