

# Collision Avoidance Sensor Market Size is Expected to Reach \$12.25 Billion by 2030

PORTLAND, OREGON, UNITED STATES, January 18, 2022 /EINPresswire.com/ -- Allied Market Research published latest report, titled, "[Collision Avoidance Sensor Market](#) by Technology (Radar, Camera, Ultrasound, Lidar, and Others), Function Type (Adaptive, Automated, Monitoring, and Warning), Application (Adaptive Cruise Control (ACC), Blind Spot Detection (BSD), Forward Collision Warning System (FCWS), Lane Departure Warning System (LDWS), Parking Assistance, Night Vision (NV), Autonomous Emergency Braking, and Others), and Industry Vertical (Automotive, Rail, Marine, Aerospace & Defense, and Others): Global Opportunity Analysis and Industry Forecast, 2021–2030." According to a report, the global collision avoidance sensor industry size was valued at \$4.0 billion in 2020, and is projected to reach \$12.25 billion by 2030, registering a CAGR of 11.9%. Asia-Pacific is expected to be the leading contributor toward the global market during the forecast period, followed by LAMEA and North America.

The report highlights numerous factors that influence the growth of the global Collision avoidance sensor market such as market demand & forecast and qualitative and quantitative information. The qualitative data of market report includes pricing analysis, key regulations, macroeconomic factors, microeconomic factors, key impacting factors, company share analysis, market dynamics & challenges, strategic growth initiatives, and competition intelligence.

Download Sample Report (Get Full Insights in PDF - 290+ Pages) @ <https://www.alliedmarketresearch.com/request-sample/2431>

The study cracks market demand in 15+ high-growth markets in the regions. Region wise, the global Collision avoidance sensor market has been studied across North America, Asia-Pacific, Europe, and LAMEA.

In term of quantitative analysis, AMR offers market sizing in terms value. Furthermore, the study covers market forecast till 2030 along with its compound annual growth rate at segment and country level. Along with this, key market trends and Y-O-Y are covered under the same section/analysis.

#### Key Players Analysis:

The major players profiled in the collision avoidance sensor market report include, Denso Corporation, General Electric Company, Honeywell International Inc., Infineon Technologies AG, Murata Manufacturing Co., Ltd., NXP Semiconductors N.V., Robert Bosch GmbH, Saab AB, Siemens AG, and Texas Instruments Inc.

Top winning strategies are analyzed by performing a thorough study of the leading players in the global Collision avoidance sensor market. Comprehensive analysis of recent developments and growth curves of various companies help to understand the growth strategies adopted by them and their potential effect on the market. The analysis indicates the performance potential of a firm in the market with respect to its competitors. Every company follows its own business strategy to attain the maximum market share. The companies were evaluated depending on annual reports, SEC filings, and press releases.

Get Detailed COVID-19 Impact Analysis on the Collision avoidance sensor market @ <https://www.alliedmarketresearch.com/request-for-customization/2431?reqfor=covid>

#### COVID-19 Impact Analysis

The eruption of the COVID-19 pandemic is projected to have a huge impact on the economic and social development. Therefore, the report portrays micro- and macro-economic analyses. The report further provides a qualitative analysis of impact of COVID-19 on the Collision avoidance sensor market. Moreover, the study emphasizes on the market size and share, which will reflect the impact that COVID-19 has had on the Collision avoidance sensor market in 2022 and is likely to have in the subsequent years. In addition, the report outlines the key strategies adopted by key players during the global health crisis. Moreover, it provides a framework on the impact of COVID-19 on the supply chain. Moreover, the roll-out of vaccines and decline in chance of infection are expected to influence the Collision avoidance sensor market growth. Therefore, the report provides post COVID-19 impact analysis.

#### Segmental and Competition Dashboard

In the segmental analysis chapter, the report provides key trends, dynamics, qualitative and quantitative information related to each product segment. The report segments the global Collision avoidance sensor market based on financial services, distribution channel.

This analysis will be covered at regional and country level for current and estimated years, i.e.,

2022–2030.

Competition dashboard offers key information related to market structure and market share analysis for top players. Along with this, company profiles will be covered under same section, which includes company description, financial analysis, and key developments. The report further features these companies in the competitive landscape chapter, which covers product/service mapping of top players, competitive dashboard, competitive heat map, and key developments between forecast period.

### Key Data Points Included in Collision avoidance sensor market Report

- The Collision avoidance sensor market analysis covers detailed information pertaining to industry and major industry participants.
- Porter's five forces analysis helps to analyze the potential of buyers & suppliers and the competitive scenario of the industry for strategy building.
- Major countries have been mapped according to their individual revenue contribution to the regional market.
- The report outlines the current market trends and future scenario of the global Collision avoidance sensor market to understand the prevailing opportunities and potential investment pockets.
- The key drivers, restraints, and opportunities and their detailed impact analysis are elucidated in the study.

### Key Market Segments

#### By Technology

- Radar
- Camera
- Ultrasound
- Lidar
- Others

#### By Function Type

- Adaptive
- Automated
- Monitoring
- Warning

#### By Application

- Adaptive Cruise Control (ACC)
- Blind Spot Detection (BSD)
- Forward Collision Warning System (FCWS)
- Lane Departure Warning System (LDWS)

- Parking Assistance
- Night Vision (NV)
- Autonomous Emergency Braking
- Others

By Industry

- Automotive
  - oPassenger Cars
  - oCommercial Vehicle
- Rail
- Marine
- Aerospace & defense
- Others

About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of Market Research Reports and Business Intelligence Solutions. AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.
