

# Survival Tools Market to Reflect a Holistic Expansion during the Assessment Period 2021–2030

*increased their interest toward recreational activities, thereby driving the growth of survival tools market.*

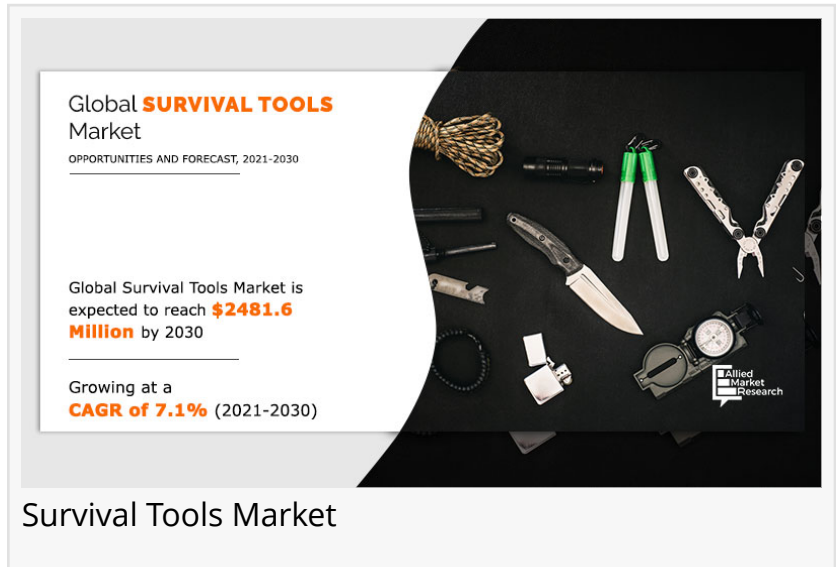

POTLAND, 5933 NE WIN SIVERS DRIVE,  
#205, OR 97220, UNITED STATE,  
January 18, 2022 /EINPresswire.com/ --  
According to a new report published by  
Allied Market Research, titled, "[Survival  
Tools Market](#) by Product Type,  
Application, and Distribution Channel:  
Global Opportunity Analysis and  
Industry Forecast, 2021–2030," the  
global survival tools market size was

valued at \$1,279.6 million in 2020, and is projected to reach \$2,481.6 million by 2030, registering a CAGR of 7.1% from 2021 to 2030. Survival tools are one of the most integral parts of recreational activities such as hiking, caving, rock climbing mountaineering and others. The survival tools are used as safety products while performing recreational activities. These includes survival knives, flashlight, first aid kit and others. In addition, the expansion of distribution channels such as online stores, specialty stores, supermarkets, hypermarkets, and B2B channels, has made these survival tools easily accessible to the customers, which in turn has increases the survival tools market demand. Additionally, the IOT embedded survival tools are the ongoing survival tools market trends.

The sports & recreational activities sector was severely affected during the outbreak of the COVID-19 pandemic. This is attributable to the facts that government of all the countries imposed strict lockdown in their countries, consumers were restricting themselves to go out from their home in order to maintain social distancing. Thus, the aforementioned facts hampered the growth of the market during pandemic.

By product type, the others segment is anticipated to grow at the highest CAGR during the

forecast period. With owing to increase in demand for outdoor recreational activities due to rising population and trend of outing and outdoor recreation, the demand for survival tools including whistles, ropes, GPS and others is consistently rising.

Moreover, by application, the camping segment in the survival tools market is anticipated to grow at the highest CAGR of 4.07% in terms of value sales during the forecast period. This is attributable to the rising trend of camping among the consumers, especially among millennial, which in turn is fueling the survival tools market growth.

Furthermore, by distribution channel, online store is anticipated to be the fastest growing segment in terms of value sales during the forecast period. This is because online platforms or e-commerce are becoming a popular medium for the purchase survival tools among the customers. This is due to easy availability of survival tools and the benefits provided by it such as the information about the product functional attribute, time-saving feature, and the facility of home delivery to the customers.
