* Networking and matchmaking on must.link/events

Robotics Day agenda

Whether it be for professional services, consumer health and confort or for google world, robots have been always a fascinating technology driving creativity and imagination! We have seen recent years tremendous progress in robot technology thanks to chip integration and power savings advancements, massive connectivity deployment and the development of Voice & Face recognition combined with AI to bring much higher level of sophistication, autonomy, interactivity, and intelligence to Robots.

“

The Payment live event was a great success. We will continue to make available our networking platform, to help tech community create opportunities and learn about the latest technology trends.”

*Must high-tech Expo Director
and EDE president Anne
Presson.*

In this conference we will deep dive and explore the latest trends and innovations on the Robots market from Robots & AI uses cases to Non-Industrial Robots to improve Human live and the latest trends for Industrial Robots.

Among the speakers, you will meet leaders of the Robots industry as well as most recognized startups with disruptive technologies.
