Table lamp has gained importance since olden times and has undergone much technological advancement in the recent times. The table lamps are used residentially as well as commercially in working places and offices. The increase in awareness about new products, advanced

technology, incorporation of new features in table lamp, investment in innovation & automation, advancement in type of light used, small & portable table lamp, the launch of various designs, customized table lamp, wireless technology, automatic table lamp, battery operated table lamp, remote & mobile applications controlling system, voice detection enabled feature, warm white

light, and hue light table lamps, multiple light features, eye care desk light, energy-saving device, adjustable arm to shift the light focus, availability of variants in several colors, table lamp as home décor, increased safety insulation, availability of replacement bulbs, reduced height and weight of table lamp, inclination toward smart home devices, and increase in disposable income are the key drivers that lead toward the growth of the global table lamp market.

The key players are inclined toward launch of smart table lamps, which provide a perfect home office lighting atmosphere. For instance, Philips has launched a series of table lamps that can be controlled from android smart devices and cycle through different hue lights.

The leading trend of domotics and smart home has created a pathway for the development of automatic devices which are functional as well as embellishing for modern homes and working places. The development of advanced features such as Bluetooth control and voice detection system has created new trends in the table lamp market. Table lamps are incorporated with various lighting options such as LED, fluorescent, halogen, hue light, and others which have expanded the choice of table lamp according to the requirement of the customer. Earlier the table lamps were limited to be used as study lamps but the development of elegant handmade and advanced designer table lamps has presented the use of table lamps for household decorations.
