

Artificial Intelligence Market Recent Future opportunities, Industry Analysis, Insights, Share and Forecasts Report 2027

Artificial Intelligence Market Size – USD 29.50 billion in 2019, Market Growth - CAGR of 36.2%

VANCOUVER, BC, CANADA, January 19, 2022 /EINPresswire.com/ -- The Global [Artificial Intelligence Market](#) and helps the market participants intensify their footprints in the industry. The report gives a detailed analysis concentrated on the critical market dynamics such as drivers, restraints, trends, and growth opportunities to assist businesses to prepare for any challenges they might encounter in the forecast period. It also offers a regional analysis of the global Artificial Intelligence Market to explore possible growth prospects available in different parts of the world.

Artificial intelligence can help reduce construction costs in many ways. For example, the use of virtual reality goggles and mini-robots into buildings under construction to track the work as it progresses. AI is also being used today to design the routing of electrical and plumbing systems in modern buildings. Artificial intelligence is also beneficial for the development of safety systems at work sites, which reduces the risks of hazards and accidents.

The global Artificial Intelligence Market is expected to reach USD 348.99 Billion by 2027, according to a new report by Emergen Research. The increasing need for understanding consumer needs and market trends is one of the major factors driving the market growth. Moreover, the extensive adoption of smartphones, along with the popularity of social media, will also boost the growth of the market in the coming years.

Data triangulation and market breakdown

Research assumptions Research data including primary and secondary data

Primary data includes breakdown of primaries and key industry insights

Secondary data includes key data from secondary sources

Key questions answered in the report

What will be the Artificial Intelligence Market size in terms of value and volume in the next five years?

Which segment is currently leading the market?

In which region will the market find its highest growth?

Which players will take the lead in the Artificial Intelligence Market ?

What are the key drivers and restraints of the Ed-Tech and Smart Classroom Market growth?

Key Highlights From The Report

Machine learning comes with a wide range of applications across several industries, such as the banking and financial sector, healthcare, retail, publishing, and social media, among others. It is used to analyze the relevance of advertisements and contents based on users' preferences. It held a market share of 32.6% in the year 2019.

The revenue generated by the software segment is the result of the extensive use of these tools in analyzing hidden data sets and data patterns from large datasheets.

North America dominated the market owing to the rapid technological advancements and increasing government investments in the development of artificial intelligence (AI). Moreover, the presence of some of the leading players of the market in the region will also drive the growth of the market in the region

Top key vendors in Artificial Intelligence Market include are:

Samsung Electronics, Intel, Xilinx, NVIDIA, IBM, Micron Technology, Microsoft, Amazon Web Services (AWS), Google, and Facebook, among others.

Emergen Research has segmented the global Artificial Intelligence Market Are:

Artificial Intelligence Market Offering Outlook (Revenue, USD Billion; 2017-2027)

Hardware

Processors

Memory
Network
Software
AI Platforms
AI Solutions
Services
Deployment & Integration
Support & Maintenance

We can customize our reports for our customers, for instance, we can add or remove manufacturers, applications or product types, whatever you need in the report. Ask for it by contacting us@ <https://www.emergenresearch.com/request-for-customization/86>

Artificial Intelligence Market Technology Outlook (Revenue, USD Billion; 2017-2027)

Machine Learning
Deep Learning
Supervised Learning
Unsupervised Learning
Reinforcement Learning
Generative Adversarial Networks (GANs)
Others
Natural Language Processing (NLP)
Context-Aware Computing
Computer Vision

Market Segments

The global Artificial Intelligence Market has been categorized based on the product type, application, and region. Our expert analysts undertake a thorough assessment of all of the segments included in the report and analyze them based on their market share, revenue, market growth rate, and other vital factors. The segmentation allows the interested parties to determine sectors in the global Artificial Intelligence Market with high growth prospects and understand the growth strategies adopted by leading segments during the forecast period.

Regional Bifurcation of the Artificial Intelligence Market Includes:

North America (U.S., Canada)
Europe (U.K., Italy, Germany, France, Rest of EU)
Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)
Latin America (Chile, Brazil, Argentina, Rest of Latin America)
Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

We provide detailed product mapping and investigation of various market scenarios. Our expert

analysts provide a thorough analysis and breakdown of the market presence of key market leaders. We strive to stay updated with the recent developments and follow the latest company news related to the industry players operating in the global Artificial Intelligence Market
