

# Global Mycoplasma Testing Market Trends, Strategies, Opportunities For 2022-2026

*The Business Research Company's  
Mycoplasma Testing Global Market  
Report 2022 – Market Size, Trends, And  
Global Forecast 2022-2026*

LONDON, GREATER LONDON , UK,  
January 19, 2022 /EINPresswire.com/ --  
According to 'Mycoplasma Testing  
Global Market Report 2022 – Market  
Size, Trends, And Global Forecast 2022-

2026' published by The Business Research Company, the [mycoplasma testing market](#) size is expected to grow from \$0.72 billion in 2021 to \$0.81 billion in 2022 at a compound annual growth rate (CAGR) of 12.4%. The growth in the market is mainly due to a growing demand for these types of tests owing to an increase in spread of mycoplasma pneumonia. The mycoplasma testing market is expected to reach \$1.29 billion in 2026 at a CAGR of 12.4%. The prevalence of mycoplasma pneumonia co-infection among patients with COVID-19 is expected to boost the mycoplasma testing industry growth in the forecast period.

The mycoplasma testing market consists of sales of mycoplasma testing services and related products by entities (organizations, sole traders, and partnerships) that provide mycoplasma testing to detect mycoplasma pneumoniae, which causes mycoplasma pneumonia. Mycoplasma pneumonia is a contagious respiratory infection that spreads easily through contact with respiratory fluids. It can cause epidemics. Mycoplasma testing includes a group of tests that measures antibodies in the blood produced in response to a mycoplasma infection and detects the microbe directly through detecting or culturing its genetic material (DNA) in a body sample.

## [Global Mycoplasma Testing Market Trends](#)

Major players operating in the market are undertaking various strategic investments such as the launch of innovative products, research and development advancements, and technological innovations, which are gaining significant popularity in the mycoplasma testing market. Companies are introducing new innovative products to meet the requirements of end-users and

Mycoplasma Testing Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides mycoplasma testing market overviews, mycoplasma testing market analysis, forecasts market size and growth for the global mycoplasma testing market, share, segments and geographies, trends, players, leading competitor revenues, profiles and market shares. The mycoplasma testing market research report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Mycoplasma Testing Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: Thermo Fisher Scientific Inc., Merck KGaA, Lonza, PromoCell GmbH, American Type Culture Collection, Charles River Laboratories International Inc., Bionique Testing Laboratories Inc., Biological Industries Israel Beit Haemek Ltd., InvivoGen, Agilent Technologies, Abbott and Roche Diagnostics.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And so much more.
