The growth of the global metabolomics market is driven by rise in prevalence of chronic diseases worldwide, an upsurge in R&D investment for the development of metabolomics, and an increase in demand for personalized medicine. However, the lack of skilled professionals in the field along with the astronomical price of metabolomic instruments hampers market growth. Nonetheless, the immense potential of metabolomics in disease diagnostics and its growing prospect in human nutrition would create lucrative opportunities for emerging market players in the near future.

Comprehensive competitive analysis and profiles of major market players, such as

The key players analyzed in the report include Agilent Technologies, Inc., Danaher Corporation, Biocrates Life Sciences AG, Bruker Corporation, Leco Corporation, Metabolon, Inc., Human Metabolome Technologies, Inc., Bio-Rad Laboratories, Inc., Shimadzu Corporation, Waters Corporation, and Thermo Fisher Scientific Inc. They have adopted different strategies including collaborations, joint ventures, partnerships, expansions, mergers & acquisitions, and others to gain a strong position in the industry.

Key Findings of the Metabolomics Market:

The drug discovery segment is estimated to grow at the highest rate during the forecast period.

The biomarker discovery segment generated the highest revenue in 2021, and is expected to continue its dominance in the near future.

North America dominated the global market in 2021.

China is expected to grow at the highest CAGR in the Asia-Pacific region.
