

Santo Blockchain Labs and French Pop Artist Jerome Peschard to Start new Series of XR-NFTs

AVENTURA, FLORIDA, UNITED STATES, January 20, 2022 /EINPresswire.com/ -- Santo Mining Corp., d.b.a. [Santo Blockchain Labs \(OTC:SANP\)](#) a vertically integrated blockchain and cryptocurrency development company with corporate subsidiaries in the Socialist Republic of Vietnam and the Republic of Panama, which manages, operates, and develops end-to-end "BaaS" Blockchain-as-a-Service, today announces that the company will start the design of the eXtreme Reality XR segment of the NFTs for the new series of [French Pop Artist Jerome Peschard](#) call "Fly me to the Moon". Just like the Rush of Mars series, there will be 51 XR-NFTs minted the series 00 will be linked to the physical art piece and 1-50 will have 1 unique 3D element.

ABOUT JEROME PERSCHARD:

Jerome Peschard, A.K.A Skullface, a contemporary French pop artist exiled in Ho Chi Minh City, Vietnam since the 2010s. Self-taught and influenced by the Universal "Pop Culture-Urban-Comics", his focus is on the importance of illustration, the texture and the support that allows him to express his Asian everyday life with its risks and unforeseen events. Thus mixing fiction and reality.

If Math is God's Universal Language, Then Blockchain is his Commerce and Bitcoin his Currency"

Frank Yglesias-Bertheau

ABOUT [OPENSEA](#):

While CryptoKitties felt like a toy to many, it represented a dramatic shift in how we interact with items in the digital world. While previous digital items lived on company servers, blockchain-native items lived on shared, public blockchains owned by no

single party. They could be viewed anywhere, exchanged openly, and truly owned in a way that was never before possible in the digital world. Fascinated by the movement that was forming, Devin Finzer and Alex Atallah joined early adopter communities in Discord and started talking to users. With the OpenSea beta launch in December 2017, the first open marketplace for any non-fungible token on the Ethereum blockchain was born. Today, we're proud to remain the largest general marketplace for user-owned digital items, supporting multiple blockchains, with the broadest set of categories and the best prices for new emerging digital item classes.

ABOUT SANTO:

The Company is a vertically integrated blockchain and cryptocurrency development company with corporate subsidiaries in the Socialist Republic of Vietnam and the Republic of Panama, which manages, operates, and develops end-to-end "BaaS" Blockchain-as-a-Service. The company manages, operates, and develops end-to-end "BaaS" Blockchain-as-a-Service, similar to software-as-a-service, blockchain as a service lets businesses get applications up and running with minimal hassle. This allows higher agility and quicker blockchain adoption. Blockchain applications are becoming more and more desirable, but they can be challenging to set up for smaller businesses or organizations with limited IT resources. A blockchain-as-a-service provider can provide professional assistance in addition to their hosting services. Additionally, the Company develops solutions such as smart digital contracts, non-fungible tokens NFTs SKULLYS, digital to physical assets tokenization, eXtended reality, and IoT internet of things for everyday life.

FORWARD-LOOKING STATEMENTS:

This press release contains forward-looking statements within the meaning of the federal securities laws. All statements other than statements of historical fact included in this presentation are forward-looking statements. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments, and business strategies. These forward-looking statements may be identified by the use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "will" and similar terms and phrases, including references to assumptions. However, these words are not the exclusive means of identifying such statements. Although we believe that our plans, intentions, and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that we will achieve those plans, intentions, or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected or may prove unachievable.

The Company's business and prospects must be considered in light of the risks, expenses, and difficulties frequently encountered by companies working with new and rapidly evolving technologies such as blockchain. These risks include, but are not limited to, an inability to create a viable product and risks related to the issuance of tokens. The Company cannot assure you that it will succeed in addressing these risks, and our failure to do so could have a material

adverse effect on our business, financial condition, results of operations, and prospects. There can be no assurance as to whether or when (if ever) the Company will achieve profitability or liquidity.

The forward-looking statements included in this press release are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events, or otherwise, except as otherwise required by law.
