# Global Digital Education Market Size Is Expected To Reach USD 155.82 billion by 2031

*Global Digital Education Market to surpass USD 155.82 billion by 2031 from USD 11.49 billion in 2021 at a CAGR of 29.79% in the coming years, i.e., 2021-31.*

PHILADELPHIA, UNITED STATES , January 20, 2022 /EINPresswire.com/ -- Fatpos Global has released a report titled "Digital Education Market - Analysis of Market Size, Share & Trends for 2014 – 2020 and Forecasts to 2031" which is anticipated to reach USD

## FATPOS GLOBAL
*Diversification with integrity*

155.82 billion by 2031. According to a study by Fatpos Global, the market is anticipated to portray a CAGR of 29.79% between 2021 and 2031. According to the report, Main factors expected to fuel the growth of the digital education market include amplified internet penetration around the world, reduced infrastructure cost, and increased scalability using online learning, and growing demand for microlearning. Technical advancements such as virtual classrooms show significant opportunities in near future for the companies that are currently offering online learning services.

"Digital education paved the path for microlearning. Microlearning refers to e-learning in small segments with just a sufficient amount of data to help individuals achieve their goals. For instance, microlearning content comprises of images, text, videos, audio, text, and games. Administrations are accepting microlearning due to factors such as fast deployment, cost-effectiveness, and updated easily", said a lead analyst at Fatpos Global.
