

Ship Loader and Unloader Market Outlook, Analysis & Industry Forecast, 2021–2030 | By Product Type, Technology

Surge in urbanization is a major factor influencing demand for ship loaders and unloaders in developing nations such as India, Vietnam, and Brazil.

PORTLAND, OR, UNITED STATES, January 20, 2022 /EINPresswire.com/ -- [Ship loader and unloader](#) products are largely used in the port and ship industry. Ship loader and unloader are used to transfer cargo from ships to shores and from shores to other mode of transport. Ship loaders are mostly fixed and offer heavy lifting and bulk material handling operations. Ship loaders consist of a vertical mast and an operating jib or arm, along with other components such as slewing unit, hook, and hoist winch, which assists in lifting and maneuvering heavy material effectively and efficiently. Ship loaders and unloaders are used in mining, packaging, and other applications.

According to a new report published by Allied Market Research, titled, “ship loader and unloader market by product type, bulk type, technology, and application: global opportunity analysis and industry forecast, 2021–2030,” the global ship loader and unloader market size was valued at \$39.7 billion in 2020, and is expected to reach \$57.8 billion by 2030, with a CAGR of 3.6% from 2021 to 2030.
