Fertility Services Global Market Report 2022: Market
Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
January 20, 2022 /EINPresswire.com/ --

According to '[Fertility Services Global
Market Report 2022](#) - Market Size,

Trends, And Global Forecast 2022-2026' published by The Business Research Company, the global fertility services market size is expected to grow from \$40.73 billion in 2021 to \$47.17 billion in 2022 at a compound annual growth rate (CAGR) of 15.8%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The fertility services market is expected to reach \$79.97 billion in 2026 at a CAGR of 14.1%. Growing infertility rates are anticipated to boost the demand for fertility services during the forecast period.
