

Factory Automation Market Forecast To 2027 by Growing Players: ABB Ltd., Mitsubishi Electric Factory Automation

OREGAON, PORTLAND, UNITED STATES,

January 20, 2022 /EINPresswire.com/ --

Allied Market Research recently

published a report, "[Factory](#)

[Automation Market](#) by Control and

Safety System (Distributed Control

System (DCS), Supervisory Control and

Data Acquisition System (SCADA),

Manufacturing Execution System

(MES), Safety Instrumented System

(SIS), Programmable Logic Controllers

(PLC), and Human Machine Interface

(HMI)), Component (Sensor,

Controllers, Switches & Relays,

Industrial Robots, Drives, and Others), and Industry Vertical (Automotive Manufacturing, Food &

Beverage, Oil & Gas Processing, Mining, and Others) - Global Opportunity Analysis and Industry

Forecast, 2017-2025". The recent technological advancements and launch of new products have

a significant influence on the growth. The report includes a detailed analysis of the market

trends, major driving factors, prime market players, and top investment pockets. It is vital for

new market entrants, stakeholders, and shareholders to make informed decisions about their

investments. The report includes a comprehensive analysis of market dynamics such as drivers,

restraints, and opportunities.

Download Report Sample with industry insights @

<https://www.alliedmarketresearch.com/request-sample/4695>

The report includes an overview of the market along with a SWOT analysis of key market players

and Porter's Five analysis to understand their market presence. Moreover, the report offers

financial analysis, portfolio analysis, and business overview of the companies which helps

stakeholders understand the long-term profitability of the industry. The report includes the

latest market developments such as new product launches, partnerships, expansions, and

mergers & acquisitions.

The report includes a detailed analysis of the dynamic factors such as drivers, restraints, challenges, and opportunities. The drivers and opportunities help to comprehend the rapidly changing industry trends and how they can impact the growth of the market. Moreover, the challenges and restraints analyzed in the report help recognize profitable market investments. The global factory automation market report provides quantitative and qualitative analysis of the market from 2021 to 2030. The qualitative study focuses on the value chain analysis, key regulations, and pain point analysis.

Request For Customization @ <https://www.alliedmarketresearch.com/request-for-customization/4695>

The report covers the qualitative and quantitative study of historic and forecast periods along with insights on recent market developments and business strategies. The report offers a detailed summary, ongoing market trends, and future estimations to help new market entrants formulate profitable business strategies.

Apart from this, the report includes several tools that establish market growth. The SWOT analysis offers a detailed understanding of the key determinants of market growth, which is essential for recognizing the upcoming opportunities in the market. Moreover, the market report includes Pestel analysis that offers industry-related data and information in tabular format. This information is essential to understand positive and negative attributes that can affect the global factory automation market. In addition, the report includes Porter's Five analysis to focus on those factors that may benefit the company in the long run.

The global factory automation market report outlines the upstream raw materials, marketing channels, downstream customer surveys, and industry development trends to provide detailed information about major manufacturing equipment suppliers, major distributors, raw materials suppliers, and major customers.

Key Segments:

By Control Systems

- Distributed Control System (DCS)
- Supervisory Control and Data Acquisition System (SCADA)
- Manufacturing Execution System (MES)
- Safety Instrumented System (SIS)
- Programmable Logic Controller (PLC)
- Human Machine Interface (HMI)

By Components

- Sensors
- Controllers
- Switches & Relays
- Industrial Robots

- Drives
- Others

By End User

- Automotive Manufacturing
- Food & Beverage
- Oil & Gas Processing
- Mining
- Others

The factory automation industry is studied on the basis of geography along with the competitive landscape in every region. The report targets North America (United States, Canada, and Mexico), Europe (Germany, France, UK, Russia, and Italy), Asia-Pacific (China, Japan, Korea, India, and Southeast Asia), South America (Brazil, Argentina, Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria, and South Africa). These insights aid to devise business strategies and how to react to new lucrative opportunities.
